

The Lee C. Moore Drilling Structure Seminar is designed to inform all levels of personnel on the basics of design, inspection, maintenance and repair of drilling structures.

This seminar is specifically tailored to benefit Drilling Managers, Superintendents, Rig Managers, Drillers, Assistant Drillers, Welding Supervisors and Maintenance Personnel. Registration is limited to end-users, Drilling Contractors and Operators. No competitors please.

Previous attendees have commented, "This is the best course I've attended in years. Well worth the money."

5416 S. Yale Avenue, Suite 500 Tulsa, OK 74135-6243
