

ROTATING DRUM DEADLINE ANCHOR

LEE C MOORE

A highly recommended anchor that is safe and easy to operate.

Deadline Anchors from Lee C. Moore offer industry-leading load capacities of up to 200,000 pounds and are designed and monogrammed per API 8C specifications. A rotating drum is used to efficiently slip drill line by optimizing safety and reduce down time.

Safety Benefits:

- Provides a safe handling distance from the unit.
- No chance of line jumping or crossing.
- Easy to use, especially with larger wire rope.
